

Consumer Negotiation Services

Coalition America is pleased to offer a personalized medical cost-containment service for consumers who do not have medical insurance or those owing medical expenses that are not covered by their health insurance. Our knowledgeable, experienced staff work directly with your providers of medical services to help you reduce your out-of-pocket medical expenses.

Did You Know?

- The average medical provider in the U.S. has between 5 and 100 different reimbursement rates or “prices” for the exact same medical procedure or medical service delivered to patients like you.
- Your health plan “network” or PPO discount, although lower than the list price, may not be the lowest price available to you.
- You can obtain the lowest commercially available wholesale price for your medical care.

Coalition America is pleased to provide you direct access to the revolutionary Consumer Negotiations Service. Acting as your personal medical claim cost management advocate, we can assist you and your family to ensure you are paying the lowest wholesale price offered by your medical provider.

How Does It Work?

If the amount you owe is more than \$150.00, before making a payment, submit your medical bill to our Consumer Negotiation Service. Services are delivered to you on a performance basis – if we can’t save you money, there is no fee. It is always free to have your medical bill reviewed and you NEVER pay more than what you owe right now. When we are successful reducing the amount you owe, our service fee is a percentage of the amount **we SAVE you**.

Remember that the Consumer Negotiations Service is not a substitute for your health plan’s claim adjudication process. We encourage you to obtain all the possible benefits from your health plan, including any PPO discounted rates from your medical provider prior to referring your bill for negotiations.

THIS IS NOT INSURANCE NOR IS IT INTENDED TO REPLACE INSURANCE.
